

## BlueParrott Pro B350

# CLEAR CALLS ON BUSY ROADS

### Clarity on noisy roads.

The Pro B350 uses industry-leading AI voice isolation microphones to block up to 98% of background noise, ensuring your voice comes through clearly in and around the vehicle. Combined with passive noise isolation built into the earcup, it delivers consistent, high-quality communication despite engine noise, frequent stops, and other driving conditions.

### Power built for routes.

With up to 40 hours of talk time, the Pro B350 supports multiple shifts of driving and communication needs without interruption. Fast charging between stops minimizes downtime, keeping your headset ready for dispatch, navigation, and calls so you can stay productive during long, busy days.

### Built for everyday conditions.

The Pro B350 offers IP54-rated protection to help guard against dust and moisture on every route. Its durable build handles daily use, weather changes, and the constant movement of life on the road, helping ensure the headset performs when you need it.

### Lightweight, all-day comfort.

The Pro B350's ultra-light design, soft, cushioned earcup, and T-bar pad reduce pressure during long shifts. With a secure fit that supports all-day wear, it stays comfortable whether you are behind the wheel for hours or stepping in and out of the truck on your route.

### Reliable connection across stops.

With multi-device Bluetooth® pairing and an extended, reliable wireless range, the Pro B350 keeps you connected even when you step away from your vehicle. The extended range supports communication during deliveries and tasks outside the vehicle without losing connection.

### Simple, hands-free control.

The Pro B350 features simple VoiceControl™ to answer and reject calls and the customizable BlueParrott Button™ for one-touch Push-to-Talk or mute. Designed to reduce distraction, it helps drivers manage communication quickly while keeping focus firmly on the road.

HOW TO USE

|              | FEATURES                                                       | BENEFITS                                                          |
|--------------|----------------------------------------------------------------|-------------------------------------------------------------------|
| Audio        | Advanced Intelligent 2-mic system                              | Removes 98% of background noise                                   |
|              | A2DP Streaming                                                 | Take calls, stream music, audiobooks or GPS navigation            |
| Ease of use  | Up to 40 hours of talk time on a single charge                 | Keep calls running as much as you do                              |
|              | Lightweight design with premium cushioned earcup and T-bar pad | For a secure and balanced fit for all-day comfort                 |
|              | Customizable, intuitive BlueParrott Button™                    | One-touch mute for instant privacy and control                    |
|              |                                                                | Can be programmed for instant access to popular Push-To-Talk Apps |
|              | Firmware upgrades via BlueParrott Mobile App                   | Keep your headset running at its best                             |
|              | One button controls on/off, call answer/end and pairing        | Easy to use controls                                              |
|              | Voice Assistance Access                                        | VoiceControl™ capabilities to answer or reject calls              |
| Connectivity | Bluetooth® 5.3                                                 | For superior connectivity                                         |
|              | Extended wireless range                                        | Up to 300 ft/100 m wireless range (phone dependent)               |
|              | Multipoint pairing                                             | Use with two Bluetooth® devices at the same time                  |
|              | Google Fast Pair                                               | For easy pairing and connecting compatible devices                |
| Durability   | IP54-rated                                                     | Protection against dust and moisture                              |
|              | Warranty                                                       | One-year warranty                                                 |
